Machine Id Serial No :- Thread / Worm Grinders Category Model :-:- England Make Country :-Matrix Type of Machine :-**Thread Grinder Machine** Year Weight **Dimensions** :-:-Location Power Mumbai Warehosue, India

Specification:-

No. 39 Universal Thread Ginding Machines

These fully universal machine used conjunction with the wide range of ancillary equipment available are applicable to almost every aspect of precision thread grinding. Annular forms can also be ground. Large quantity production or specialized applications can be undertaken with equal facility.

Plunge or traverse grinding techniques can be employed, using single or multi-ribbed grinding wheels. Threads of practically any from single or multi –start, right or left hand, parallel or tapered can be ground in addition, worm forms can also be produced.

A relieving mechanism incorporated in the basic machine enables taps, thread milling cutters and similar components to e ground.

So supplement inherent versatility, a large range of wheel forming equipment is available.

Specification:

No.39 machine

Maximum length between centres 508mm 20in Maximum length ground at one setting 482mm 19in Maximum diameter admitted 254mm 10in 305mm 12in maximum diameter swing into gap maximum helix angle 45 right or left hand 0,42 to 305mm lead 60tpi to 12in lead Pitch range Workhead speeds (forward)20 0.2 to 60 rpm Return speeds 25.4 80 rpm or same as forward speed Grinding wheel spindle speeds 850 or 1310 or 1540 rpm Grinding wheel size (standard) 406x25x205mm bore 16x1x8in bore Maximum taper on diameter 1 in 12 1 in 8 Relief (variable up to) 5mm 0.2 in Maximum chaser length 254mm 10in Wheelhead motor 4.4/2.2kw 6/3 hp Crushing motor 0.25 kw 1/3 hp 0.55kw 3/4 hp Gearbox motor
